NOTHING LIKE IT

Its peculiar efficacy is due as much to the process and skill in compounding as to the ingredients themselves. Take it in time. It checks diseases in the outset, or if they be advanced will prove a potent cure.

**No Home should be Without It.**

It takes the place of a doctor and a dose in numerous cases. All who lead sedentary lives will find it the best preventive of and cure for Indigestion, Constipation, Headache, Biliousness, Piles and Mental Depression. No loss of time, no interference with business while taking. For children it is most invaluable. Always take after eating. Cures Colic, Flatulence, Sour Stomach, Heartburn, Bowel Complaints, Feverishness and Feverish Colds. Invalids and delicate persons will find it the mildest Aperient and Tonic they can use. A little taken at night insures refreshing sleep and a natural evacuation of the bowels. A little taken in the morning sharpens the appetite, cleanses the stomach and sweetens the breath.

FOR WHOSE BENEFIT

A PHYSICIAN'S OPINION.

"I have been practicing medicine for twenty years and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system."

**PIANOS.**

GAINED FIRST PREMIUM FOR GREATEST merit at the New Orleans Cotton Centennial and WORLD'S Exposition for refined and wonderful power of tone, elegance of design, and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases finest carved, rosewood finish—finest imported double repeating action—three strings throughout of best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, is the greatest invention ever made in pianos. It consists of stationary STEEL tuning pins that are set in a mold and molten STEEL is run round the pins keeping them solidly in place. A thimble or shell pin is made to exactly fit the stationary pin revolving therein; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the rest plank being of STEEL not affected by extremes of climate. This will be be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.

Great strength and durability is another advantage. In other pianos holes are bored in wooden boards and tuning pins inserted. The pins turn round in this board and cannot stand permanently in tune, and it often cracks, splits, drys out, becoming utterly, totally and entirely worthless as a musical instrument. Our STEEL tuning device is in no way affected by such casualities, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tunning is saved. This patent alone is worth millions and makes our piano the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save $100 or $200—dealers' profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of $200—slipping away—pity them.

We guarantee our pianos ten years, 200 styles. We have put our prices at lowest bed-rock for Cash.

**A $600 Piano for $259.50; a $900 Piano for $297.50; a $1200 Piano for $375.50; a $1500 Piano for $475.50.**

Upright Cabinet Grands, with stool and rubber cover shipped on board cars at S. F., to any part of the United States, Canada or Mexico. Our terms are cash with order. If not as represented money returned. We occassionally have good second-hand pianos, made over at $100 to $300, which we take in part payment for our own. Write or call for catalogue, free.

## THE HOT WATER CURE.

A VERY SIMPLE AND AGREEABLE REMEDY FOR DYSPEPSIA.

**Harmonizing Conflicting Opinions on the Subject — How and When Hot Water Should Be Used—"The Hair of the Dog Is Good for the Bite."**

A "constant reader" writes that he is in a fog as to the effects of hot water in the treatment of dyspepsia. He has seen it advocated in these columns and condemned by an esteemed contemporary, who maintains that hot water brings on the disease for which it was recommended. He now writes to know which statement is correct. Hot water, hot tea or coffee, in fact, hot food, whether liquid or solid, if used persistently, will in time irritate the stomach and so impair its power to digest. Practically, it will bring

NOT ALWAYS DYSPEPSIA.

Now as to the efficacy of hot water in the treatment of that disease. As a remedy it doubtless appears of the "hair of the dog" sort. It must be remembered that there is a decided difference between a healthy stomach and one in disease. In health, nothing ought to be habitually put into that organ which is much more than "blood warm." But in disease the condition of things is very different. What is known as dyspepsia springs from variable conditions, too many, in fact, to discuss here. But in nearly all of them the stomach is less active than it ought to be, or it works to a disadvantage, and needs a spur or corrective.

Hot water acts in several ways. When taken into the stomach it not only stimulates it and quickens its action, but it tends—as do all hot applications—to allay irritation. Beside that, it acts mechanically, and washes out that organ, hurrying its contents down into the intestine, when without it the same would be retained longer than there is any need of. Let a person who four or five hours after a hearty meal still feels uncomfortable sip a cup of very hot water, and it will bring him great relief, stimulating the stomach and washing out of it much of its contents which would have been sent on into the intestines had not that organ been fatigued by overwork.

Now, in what passes under the head of dyspepsia there is often a catarrhal trouble of the stomach, and the same sort of affection, also, frequently exists in the intestine. The lining is more or less irritated, and, in consequence of it, not only is the secretion of mucus greater than in health, but the same is changed in character, is thicker, more adhesive, etc. While the stomach is empty this mucus pours out of its walls and glues them over, as it were. With such a deposit upon them, let food be taken into it and soon the same is coated with mucus, and so rendered less susceptible to the digestive fluids. Not only that, but the mucus in question, while on the walls, keeps back to a certain extent the gastric juice, and prevents its free entrance into the stomach. For such a condition of things as this hot water is the simplest, most grateful and effective remedy known.

A PHYSICIAN'S TESTIMONY.

But by hot water is not, by any means, meant water "scalding hot." Water too hot may injure the lining of the stomach and cause other ill effects. Hot water to be taken internally as a medicine should be at a temperature of from 110 to 120 degs., or about as hot as the coffee one indulges in after dinner. It should be taken before meals—from one-half to an hour and a half—and be slowly sipped. If one is even fifteen or twenty minutes in drinking a glassful all the better. There are some precautions to be used in taking hot water.

A person who is liable to hemorrhages should only take it "blood warm." One with heart trouble—who has a weak heart—must sip it more slowly than others need to do, occupying the longest time advised. While this remedy is one of the simplest and most effective in suitable cases, it must not be forgotten that its indiscriminate use is strongly discouraged. Before applying it habitually, the safe way is to consult a physician, as in some instances where it would seem advisable to take it, it might be contra-indicated. To settle this question regarding the value of hot water and the possible dangers of using it, the following testimony of a physician is offered:

"We often hear it said that the free and prolonged use of hot water tends to injure the system. Some say that it is weakening, that it weakens the nerves of the stomach, that it causes anæmia of the stomach, that it interferes with digestion, that it tends to produce a flushed face and cerebral hyperæmia, that it debilitates the alimentary tract, and that it causes a host more of most direful evils. As a rule, all these objections are theoretical, and come from those who never used it intelligently and systematically, and hence are ignorant of the facts. In reply to such objections, all I can say is that I have used hot water daily for six years without the slightest perceptible injury, and have seen only uniformly good results in persons for whom I have prescribed its daily and long continued use."—Boston Herald.

### Stormy Parts of the Ocean.

The most violent hurricanes originate in the tropical latitudes; in the Atlantic ocean, to the north or east of the West Indian Islands; and in the Pacific, in the China seas, and the neighborhood of the Philippine Islands. As the West Indian cyclones follow the course of the gulf stream, so the typhoons of the Pacific follow the course of the great oceanic current which passes round the East Indian archipelago, the shores of China and the Japanese Islands. A more continuously rough and stormy part of the ocean does not, perhaps, exist than that in the neighborhood of the Shetland Isles at the north of Scotland, where the German and Atlantic oceans meet, and where the currents are both rapid and dangerous. The most variable weather is, however, experienced off Honolulu, Sandwich Islands.—New York Telegram.

## THE EIFFEL TOWER.

**How the Tallest Artificial Structure on the Earth Looks.**

The monstrous tower designed by Engineer Eiffel for the Paris exposition has three stories or divisions. The first story is sixty meters high (a meter is equal to thirty-nine inches) and rests on the arches which join the four foundation columns that carry upon them the entire weight of the huge tower.

The tower has four distinct sections. Each wing is provided with a refreshment saloon that may be reached by means of winding staircases under the foundation piers. Notwithstanding the center of the space has been set apart for the elevator, there still remain 4,200 square meters of floor room for the accommodation of visitors who may desire to promenade and enjoy a view of the city from that height.

The apartments are very roomy, and precautions have been taken to insure the visitors against all possibility of accident.

An iron railing, about four feet high, with an arched roof to exclude the intense rays of the sun, surrounds the extreme edge of the platform, as it may be called, which has been reserved as a promenade for those who desire to walk about. The requirements for the comfort of the inner man, too, have not been forgotten. Kitchens, storerooms, ice chests and the like have been fitted up in the most handy manner imaginable. Each one of the four cafes is provided with a cellar capable of storing 200 tuns of wine.

Everything about the structure is absolutely fireproof, for iron is the only material that has been used in its construction. Two thousand persons per hour can ascend and descend the staircases leading to the platform, and 4,000 can find seats to rest upon in the cafes at one time.

The second story, which is sixty meters above the first one, is also reached by four staircases built inside of the supporting columns which make a sharp inward curve, leaving but 1,400 square meters of surface for the platform and promenade. Here, too, in the commodious and handsomely decorated cafe the thirsty and tired sightseer may find something more potent than Seine water to recuperate his strength.

This story is ninety-one meters above the tip of the Notre Dame steeple, and higher than the tower of the palace of the Trocadero, on the other side of the river, and, as may easily be imagined, the view of the surrounding country to be had from such an altitude is almost indescribable. From here on the columns of the tower fall in toward each other until they ascend a distance of 275 meters above the ground, where the third and last story is situated.

Only one staircase leads to the third story, which is for the exclusive use of the persons employed in the tower, and all visitors are expected to use the elevators, two in number, to reach that point. The platform is eighteen meters square, still large enough to erect thereon a comfortably sized dwelling. The view here is simply superb. The story is equipped with reflecting mirrors and a large supply of field glasses for those who wish to use them. It has been estimated that the ordinary eye can discern objects seventy miles away.

The tower terminates in what is known as the lantern, twenty-five meters above the third section, but this place has been set aside for the use of the scientists for making observations.—Vossiche Zeitung

### What a Boy Did.

A few days ago a horse attached to an express wagon went racing past the Grand Pacific. The animal had evidently been feeding and became frightened, for he had no bit in his mouth and his bridle hung on his neck. As the runaway rushed furiously across Clark street and west on Jackson a young lad jumped forward, caught the tailboard of the wagon and climbed in. He had no sooner got there than the vehicle struck a cab and careened sufficiently to throw the boy out. He picked himself up quickly and climbed back once more into the wagon. While the horse was still running at full speed the boy ventured out on to the shafts, reached the horse's head and managed to stop the animal just before Fifth avenue was reached. Two policemen stood on the corner of Jackson and Clark and saw the horse rush by, but made only slight efforts to check him. For all this one of the bold bluecoats said to the other: "That was a brave attempt you made to stop that horse, Jim; your life was in danger every minute." "That's true, Dan, that's true; and I never would have had the courage to do what I did had I not seen the bravery you showed first. It was your example that gave me the grit." And the guardians of the public put their clubs besides their noses and smiled knowingly at each other.—Chicago Herald.

### Another Egg Experiment.

Make a very small hole in each end of a fresh egg, and, after blowing out the contents, close one end with a bit of sealing wax. Cut two pieces of cloth in the shape of the body of a fish, and sew them together on the edges, so as to make a pointed bag. Put some sand into this for ballast. The mouth of the bag must be exactly the size of the egg, which is to be fastened into it with sealing wax or glue, to form the head of the fish. Having prepared it in this way, paint two eyes on the egg with black paint, and the magic fish is ready to be put into a jar of water. The weight of the sand in the bag must be such that the fish will float on the surface if left to itself, but so that a very light touch will cause it to sink. Cover the jar tightly with a piece of india rubber, or any other water proof flexible substance. When a hand is laid on the covering the pressure transmitted to the liquid will cause a little water to enter the egg, and the fish will dive; the heavier the pressure the more quickly it will plunge. Remove the pressure from the india rubber and the compressed air in the egg will force it out of the water and the fish will come to the surface again.—Christian Union.

### The Blind Man's Cafe.

Some years ago in Paris there was a small restaurant, known as the Blind Man's cafe, much frequented by the blind, where an orchestra of blind musicians performed for the amusement of patrons. One extremely dark night in winter, when a thick fog had fallen over Paris—so thick that no one could see his way, nor so much as distinguish a street lamp ten feet away, and when policemen, carrying torches, here and there assisted some groping foot passenger to find his course—a gentleman, seeing another man walking along confidently and boldly, ventured to say to him:

"Sir, will you please tell me where you are going?"

"To the Palais Royal," said the gentleman, who was walking with such sure footsteps.

"And how do you find your way so readily?"

"Oh, never mind; I never get lost. Do you wish to follow me?"

"Thank you."

So the first gentleman caught hold of the pocket of the other's overcoat and started after him. Not a thing could he descry, but his companion marched confidently along. At length the two arrived under the familiar arches of the Rue de Rivoli.

"We are safe now," exclaimed the gentleman who had been led; "and may I thank you for giving me the advantage of your wonderful eyesight?"

"Yes, but you must not detain me. Your faltering along the way has already made me a little late for my orchestra."

"What orchestra?"

"The orchestra in the Blind Men's cafe."

The man was perfectly blind. The thick fog was nothing to him, who had walked in darkness all his life, but had, nevertheless, learned his way surely through the great city.—Argonaut.

### The Speed of Thought.

It takes about two-fifths of a second to call to mind the country in which a well known town is situated or the language in which a familiar author wrote. We can think of the name of the next month in half the time we need to think of the name of last month. It takes on the average of one-third of a second to add numbers containing one digit and half a second to multiply them. Such experiments give us considerable insight into the mind.

Those used to reckoning can add two to three in less time than others; those familiar with literature can remember more quickly than others that Shakespeare wrote "Hamlet." It takes longer to mention a month when a season has been given than to say to what month a season belongs.

The time taken up in choosing a motion, the "will time," can be measured as well as the time taken up in perceiving. If I do not know which of two colored lights is to be presented, and must lift my right hand if it be red and my left if it be blue, I need about one-thirteenth of a second to initiate the correct motion. I have also been able to register the sound waves made in the air by speaking, and thus have determined that in order to call up the name belonging to a printed word I need about one-ninth of [illegible] one-quarter of a second and to a color one-third of a second.

A letter can be seen more quickly than a word, but we are so used to reading aloud that the process has become quite automatic, and a word can be read with greater ease and in less time than a letter can be named. The same experiments made on other persons give times differing but little from my own. Mental processes, however, take place more slowly in children, in the aged and in the uneducated.—Nineteenth Century.

### Plain Words About Peking.

Above all other characteristics, however, of Peking one thing stands out in horrible prominence, and I have put this off to the last. Not to mention it would be to willfully omit the most striking color of the picture. I mean its filth. It is the most horribly and indescribably filthy place that can be imagined. Indeed, imagination must fall far short of the fact. Some of the daily sights of the pedestrian in Peking could not hardly be more than hinted at by one man to another in the smoking room. There is no sewer or cesspool, public or private, but the street; the dog, the pig and the fowl are the scavengers; every now and then you pass a man who goes along, tossing the most loathsome of the refuse into an open work basket on his back; the smells are simply awful; the city is one colossal and uncleansed cloaca. As I have said above, the first of the two moments of delight vouchsafed to every visitor to the Celestial capital is his first sight of it. The second—though I must not omit to thank my too kind host for one of the pleasantest and most instructive fortnights of my life—is when he turns his back, hoping that it may be forever, upon "the body and soul stinking town" (the words are Coleridge's) of Peking.—Pall Mall Gazette.

### One Way to Encourage Truth Telling.

Ninety-nine children out of every hundred will tell a falsehood if you speak to them thus: "My son, I do not know whether you did the act with which you are charged or not. I have no means of knowing. I must rely on what you now say. If you say you did not, I will make you a present of a handsome pony, saddle and bridle. If you say that you did the act I will whip you till you can't stand up and put you on bread and water for two days. Now truth is beautiful. Speak the truth!"—Nashville American.

### A Story of Too Below.

While playing the piano before large audiences he has often suddenly stopped, walked to the front of the stage and made speeches absolutely antithetical to the spirit and opinions of his listeners. On one occasion he suddenly took it into his head that it was positively essential for each individual member of the vast orchestra he was conducting to stand while playing. They had to stand, some of them with heavy instruments, for nearly three hours.

## APPALLING.

The Johnstown calamity, as described in the city press, is one of the most appalling that has ever taken place in the history of the United States. Conemaugh Lake, an artificial body of water three-and-a-half miles long, one-and-a-half miles wide and seventy feet deep, which had been imperfectly constructed, suddenly gives way and a vast volume of water, described as thirty feet high, rushes through a narrow valley twelve to fourteen miles long and less than a quarter of a mile wide and lays waste to eight villages, and in less than one hour fifteen thousand lives are lost and $40,000,000 of property destroyed. The tale is a frightful one and well may it strike terror into the stoutest of hearts. Thousands of happy homes have been completely oblitered and whole families wiped out of existence without the slighest warning. To add to the horrors of the scene the wrecked houses took fire after the rushing waters had somewhat subsided and over a thousand people, who had become fastened in the ruins and were unable to extricate themselves were burned alive. Out of a population of 40,000 scattered along the devastating track of the pent up and raging waters, nearly one-third disappeared in the mighty maelstrom. To add to the horrors of the situation those who so miraculously escaped both flood and fire are now menaced with pestilence and famine. The decaying bodies of thousands of victims lie scattered broadcast among the ruins and cannot be got out for days and even weeks and it is feared an epidemic may break out.

The survivors of this appalling disaster are now in need of assistance. An appeal for aid is being responded to from all quarters of the Union. Every city, town and hamlet ought to give something, and we trust that the people of Sonoma will not be unmindful of the sufferings and woe of the survivors of the Conemaugh disaster and will contribute their mite if called on to do so. "Let us do unto others as we should wish to be done by."

## THE CORK TREE.

Just now the cork tree is attracting considerable attention in this State. It is claimed that if it can be grown on this coast it will prove one of the most profitable of trees, as there is always a good demand for cork. That Sonoma Valley soil can produce this tree in all its native luxuriance does not admit of a doubt. Years ago a number of these trees were planted on the Howe & Hall place. They took kindly to the soil and grew rapidly without irrigation and very little care. These trees are alive to-day. The trunks are as big around as a man's body and are encased with a rind of cork several inches in thickness. At the Mechanics' Fair two years ago samples of cork from these trees were exhibited and attracted considerable attention.

Seattle, W. T., was visited by one of the most disastrous fires that has ever taken place on the Pacific Coast on Thursday afternoon last. The entire business portion of the city was reduced to ashes in less than three hours. The loss is said to be $10,000,000.

**Disarming an Unseen Foe.**

"This was sometime a paradox," as Hamlet says. Since, however, the people, of Amercia and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Wherever malaria evolves its venom to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague take no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is its preventive force that should chiefly recommend the Bitters to persons dwelling in malaria-cursed localities, for it is a certain buckler of defence against which the enemy is powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

## BOARD OF SUPERVISORS.

Monday, June 3d.

The Board of Supervisors met in regular monthly session, at the Court House, Santa Rosa, at 10:30 o'clock, this date, all members present, Chairman Allen presiding.

The following Road Overseers' bills were allowed: D. W. Long, Vallejo road district, $333; Thomas Furlong, Bodega, $263; Gallant Rains, Petaluma, $343.32; Charles Fairolo, Sebastopol, $316.58; C. E. Rosebrough, Cloverdale, $44.50; W. F. Harris, Washington, $50; James Patrick, Knight's Valley, $83.06; C. J. Parkenson, Mendocino, $67.10; A. R. Bell, Healdsburg, $125.25; H. A. Russell, Fulton, $526.30; C. Y. Caldwell, Santa Rosa, $184.35; A. J. Packwood, Russian River, $387.30.

On motion of Mr. Cady, a warrant was ordered drawn in favor of John Cavanaugh for $150 in payment of work performed in building fences on a public highway in Vallejo road district.

On motion of Mr. Davis, $2,000 was ordered transferred from the general fund to the indigent fund.

The Road Commissioner of Analy township was authorized to proceed with the repairs in the public road leading from Bloomfield to Petaluma.

The contract for planking and railing the Hulbert creek bridge was awarded to B. F. Murphy for $244.50.

Tuesday, June 4th.

The annual report of Rufus Niles, ferryman on the Gualala river, was received and placed on file.

It was declared the order of the Board, on motion of Mr. Cady, that when the petitioners for the proposed public road in Sonoma township, leading from Schellville to Napa county line, shall have furnished a good and sufficient deed to the county for a right-of-way, free of cost, and shall have graded and fenced said road at their own expense to the satisfaction of the Road Overseer of the district, the county will accept the same and declare it a public highway.

Contracts for furnishing the County Farm and Hospital with supplies for the next quarter were awarded to the following-named firms: Meat, J. W. Gray and Noonan & Towey; groceries and provisions, Howell & Bryant, Hayes & Kopf, Spencer & Williams, Doggett & Co.

AFTERNOON SESSION.

On motion of Mr. Davis, County Clerk Juilliard was authorized to purchase a $435 safe for his office.

The consideration of the petition from the Board of Trade for the appropriation of $1,000 to be expended in the interest of immigration was postponed indefinitely.

The following reports were received and placed on file: John Brown, Justice of the Peace, Santa Rosa township; Charles Cook, Justice, Cloverdale township; M. M. Shearer, County Physician; C. W. Hawkins, Superintendent County Farm.

A bill for the board of city prisoners in the County Jail was ordered made out by the County Clerk and presented the City Council.

Thursday, June 6th.

The monthly reports of the Auditor and Treasurer were placed on file.

Tuesday, July 2, was set as the time for further hearing of the report of the viewers appointed to view and lay out a certain road in Healdsburg road district.

On motion of Mr. Clark, it was made the order of the Board that, when the petitioners interested in the proposed change of road from Windsor to Mark West Springs shall have furnished the county with good and sufficient deeds for the right-of-way and shall have built, graded and fenced said road to the satisfaction of the Road Overseer of the district, the Board will accept the same and declare it a public highway. It was further ordered that, when said work shall have been done satisfactorily, a warrant will be ordered drawn on the Russian River road fund in the sum of $145, to reimburse the petitioners for the cost of building said road.

On motion of Mr. Smith the sum of $500 was ordered transferred from the general road fund to the Salt Point road district fund.

The report of the viewers on the proposed change of road near the Plantation House was adopted, and it was further ordered that when the petitioners shall have furnished deeds for the right-of-way and constructed said road at their own expense and to the satisfaction of the Road Overseer of the district the Board will accept the same and declare it a public highway. The petitioners, were also authorized to place in the trerasury of the county the sum of $100, the amount of damages awarded to the non-consenting land owners, with the understanding that, in case said damages are refused, the District Attorney will institute proceedings in accordance with the law to procure the right-of-way.

Be sure and take advantage of the pleasant weather and good roads to invite your wife, daughter or sweetheart for a drive to Agua Caliente Springs where the flowers bloom, the birds sing and the best of refreshments can be procured at any time of the day or any season of the year. *

When you want a good shave or hair cut, go to Chas. Dalpogetto of the City Barber Shop. *

**Help Yourself.**

Fight your own battles, hoe your own roe. Ask no favors of any one, and you'll succeed a thousand times better than any one who is always beseeching some one's influence and patronage. No one will ever help you as you can help yourself, because no one will be so heartily interested in your affairs. The first step will be such a long one, perhaps; but carving your own way up the mountain you make each one lead to another, and stand firm while you chop still another out. Men who have made fortunes are not those who have had $5000 given to them to start with, but boys who have started fair with a well-earned dollar or two.

Men who acquire fame have never been thrust into popularity by puffs begged or paid for, or given in friendly spirit. They have outstretched their own hands and touched the public heart. Men who win love do their own wooing, and I never knew a man to fail so signally as one who induced his affectionate grandmother to speak a good word for him. Whether you work for fame, for love, for money, or for anything else, work with your hands and heart and brain. Say, "I will," and some day you will conquer. Never let any man have it to say, "I have dragged you up." Too many friends sometimes hurt a man more than none at all.—Ex.

**Monarch Cooking.**

Mr. A. Robinson of Gilroy, California, writes under date of May 27th, as follows: "I would particularly recommend your Monarch Gasoline Stove No. 107, as every one I have sold has given satisfaction in Baking and Cooking. My customers are much pleased with its compact shape, safety, simplicity and durability. The New Fuel-saving Cut-off Cap pleases the ladies, as it reduces the expense of using gasoline. This fact alone places the New Monarch Stove No. 107 far in advance of all others, and then the New Automatic Safety attachment makes it the safest stove in use. I consider it the boss. When I sell one to a lady who has a married sister in thie vicinity I know I will soon have another customer for one more No. 107." Ask your dealer for it, or send for catalogue to John F. Myers & Co., 863 Market St., San Francisco.

**Merit Wins.**

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. At E. Wegner's Drug Store.

**Contagious Blood Poison**

Is the constitutional blood disease which for several centuries past has been infesting mankind with its annoying features and destructive results, and is now the great bane of the human race. This is the worst of all blood contagion, as the horrible poison is transmitted from one generation to the next, and even the third and fourth. We do not honestly believe that the terrible scourge has ever been cured and thoroughly eradicated from the human body by another remedy than Swift's Specific, and we further say that Swift's Specific has never been known to fail to make a permanent cure in any case when it has been taken before any of the vital organs had become so impaired as to render a cure impossible.

Swift's Specific cured me of a severe case of blood poison which obstinately resisted and refused to be cured for 26 years. The regular medical remedies of mercury and potash only added fuel to the flame. I suffered during most of this long time with ulcers, blotches and sores of the most offensive character, and was for a long time practically an invalid. In less than thirty days use of S. S. S. I was all cleared up sound and well. This has been nearly a year ago, and no sign of any return of the old enemy.

### Old Residents.

Last Tuesday there were grouped together on one of our principal streets three of the oldest living residents in this valley. The group was made up of Gen. M. G. Vallejo, who has resided here continuously for 56 years, L. Adler, who has lived in the house he now occupies for 41 years and Don Vasquez who came to Sonoma 40 years ago. They were engaged in discussing the School Trustee question, in which all took a lively interest. Although these old residents have passed three-score-years-and-ten either would readily pass for sixty. So much for the climate of Sonoma Valley.

### Will Celebrate.

At a special meeting of the members of the Sonoma Hook and Ladder Company held Tuesday evening it was unanimously decided by the members to give Sonoma a rousing celebration on the Fourth. A committee, consisting of E. H. Pauli, A. Estes, M. J. Haraszthy and G. S. Harris, were appointed to make preliminary arrangements and report at the next meeting of the company. It is the intention of the company to make this one of the biggest celebrations ever held in Sonoma, and no pains or expense will be spared to carry out this plan.

### School Trustee Election.

The contest over the election for a School Trustee of this district last Tuesday was one of the most lively that has taken place in Sonoma for many years. The contestants were R. A. Poppe and Jas. McDonnell, Jr. Each had a large number of friends engaged in driving voters to and from the school house, where the election was being held. Go-carts, buggies, spring wagons and all manner of vehicles were pressed into service and at times Napa street had the appearance of a race course. There was 148 votes polled. Of these Mr. Poppe received 76 and Mr. McDonnell 72.

### More Artesian Water.

On Saturday last a large flow of water was struck on Gen. M. G. Vallejo's place by W. F. Bean. The water will be used for improving the service of the Sonoma Water Works, a controlling interest of which is held by the General. For some time past the water in the company's reservoir has been receding and in consequence water consumers have been put on a short allowance. Now that a plentiful supply of flowing water has been struck, it is Gen. Vallejo's intention to lay new pipes along the principal streets of Sonoma.

### Election of Officers.

Sonoma Parlor, No. 111, N. S. G. W., held its semi-annual election for officers last Monday evening with the following result: H. S. Manuel, President; W. T. Bordwell, First Vice-President; W. T. Wyatt, Second Vice-President; A. J. Estes, Third Vice-President; J. Martin, Treasurer; John Gaffney, Marshal; Recording Secretary, H. C. Lutgens; Financial Secretary, Thos. Monahan; Surgeon, H. H. Davis. Trustees—W. T. Bordwell, E. H. Pauli and J. E. Poppe.

### School Census.

Jas. McDonnell Jr., Census Marshal for Sonoma School district has completed his labors. His report shows a total of 375 children between the ages of five and seventeen. Of these 198 are boys and 177 girls. The number of children born since the last census is 21. The parentage of these children are as follows: Native born parents, 112; one parent foreign born, 54; both parents foreign, 291.

### Fizz! Bang!! Boom!!!

Articles of incorporation of the El Verano Whistle Company were filled in the Secretary of State's office at Sacramento last Tuesday. The object of this company is to run a newspaper at El Verano, and, we presume, to sell shares to the people of this valley. The capital stock is $20,000. The directors are Geo. H. Maxwell, Thos. Bewsy Holmes, W. K. Nichols, Hugh Maxwell and E. C. Jose.

### Examination of Teachers.

The examination of teachers will be held in Santa Rosa, commencing on Monday, June 24th and continuing until the following Saturday. An entrance fee of $2 will be charged this year instead of $1 as heretofore This money will be applied to the Teachers' Institute Fund and the Teachers' Library Fund in equal parts.

### Closing Exercises of the Sonoma Public School.

The closing exercises of the Sonoma Public School were held at Weyl's Hall last Friday evening. The hall was crowded with the parents and friends of the children. The scholars acquitted themselves admirably. Sonoma has cause to be proud of its youth, who will compare favorably with those of any other section in the State. We regret that we were unable to attend, owing to its being publication night.

The public school at Schellville closed last week for the Summer vacation.

### The City Trustees.

The City Trustees held their regular monthy meeting at the City Hall last Wednesday evening.

Trustees McHarvey, Poppe, Wegner, Manuel and Clerk Breitenbach were present.

After the minutes of the last meeting had been read and approved, the following bills were presented and ordered paid. J. Linehan, labor, $5; M. G. Vallejo, rock, $10; Thos. Moss, Jr., sprinkling streets, $7.50; Wm. Parish, labor, $16; G. W. Sparks, salary, $16.50; F. Breitenbach, salary, $25.

On motion of Trustee Manuel the report of the Street Committee was accepted.

The following resolution was then introduced by Trustee Poppe and passed unanimously.

Resolved, That the Committee on Ordinances be and they are hereby instructed to examine all the ordinances now in force and to suggest any changes therein which may be necessary to make them effective. Also, to draw up any new ordinances which may be required.

Upon motion of Trustee Poppe the Clerk was instructed by the Board to notify all persons having property fronting on the Plaza that the report of the Street Committee recommending the removal of obstructions on the side walks around Plaza has been adopted by the Board.

The Board then adjourned.

### The Masonic Basket Picnic.

The basket picnic to be given at Russian River Grove by the Santa Rosa Masonic Lodge, on Saturday, June 22d, promises to be one of the events of the season. The high standing of the members of the order is a sufficient guarantee that it will be one of the best conducted picnics ever held in this county. The round trip from Sonoma and Glen Ellen has been placed at the very low figure of $1. and as no other expense is attached to the trip, if we except the cost of filling lunch baskets, no doubt many in this valley will avail themselves of the opportunity afforded for a day's outing in the redwood forests of Russian river. Children under 12 will be charged half price. Excursionists from Sonoma Valley towns will take the regular morning train of the Narrow Guage road to Ignacio, where they will find a special train from San Francisco awaiting to convey them to the picnic grounds.

### A Sad Death.

On Wednesday afternoon last Charles Stanton, formerly of San Francisco, was drowned while bathing in Russian River, near Duncan Mills. He had lately come from San Francisco to take a position as steward with Mr. Moore, proprietor the Grand Hotel, Duncan Mills. He had not intended to assume the duties of his new position until the first of the month, and in the meantime had been familiarizing himself with the many attractive spots which abound in that part of the county. The friend who was in the water with him says that Stanton, without any previous warning, uttered a piercing shriek and sank out of sight beneath the swiftly flowing current. He had been taken with a cramp, and, being in deep water quite a distance from the shore, his death was inevitable. Every effort to recover the body has been without avail, and as a last resort giant powder is being used in the hope of floating the corpse.—Democrat.

### Runaway.

As Mrs. W. T. Bordwell and her two children were driving into town in go-cart one day this week the horse took fright and ran away. The vehicle was tipped over and all were thrown violently to the ground. One of the children was knocked unconscious, but was subsequently found not to be seriously injured. Mrs. Bordwell and the other child escaped without a bruise.

### A Large Sliver.

The horse belonging to Henry Raschen, which was so severely injured a couple of weeks ago in attempting to jump a fence on the Winkle farm, is rapidily recovering under the care of Sam Agnew, an experienced veterinary surgeon of this valley. The horse in jumping the fence ran a sliver 7½ inches long by one and a half inches wide into his breast. This was removed by Mr. Agnew in seven pieces without scarifying the horse, and in a few weeks he will be none the worse for the accident.

### Santa Rosa Planing Mills.

In another column will be found the advertisement of the Santa Rosa Planing Mills, which were lately destroyed by fire. Phœnix-like, the mills have risen from their ashes, and are now prepared to turn out wine casks, barrels, tanks, brackets and mouldings of every description at short notice. Mr. P. H. Kroncke, the proprietor, is one of the fairest business men we have ever had dealing with.

The vocal organs are strengthened by the use of Ayer's Cherry Pectoral. Clergymen, lawyers, singers, actors and public speakers find this preparation the most effective remedy for irritation and weakness of the throat and lungs, and for all affections of the vocal organs.

### Personal and Social.

Mrs. E. Pauli is visiting in San Francisco.

Miss Octavia Copeland is visiting friends in the city.

Mrs. Capt. J. J. Stofen is up from the city visiting Mr. and Mrs. Church.

Mrs. Keogh of San Francisco is the guest of her daughter Mrs. Granice.

Mr. Henry Chauvet is at present confined to his home by his recent spell of sickness.

Mrs. K. F. Warfield of Ten Oaks Vineyard returned from a business trip in the city Wednesday.

Mrs. J. Bartholme returned from San Francisco Saturday after a weeks' pleasant visit to relatives.

Mr. Wm. Fahey, a capitalist of Merced and owner of the Tuolumne Hotel of that city, is the guest of H. H. Granice.

Mrs. Walker and daughter of Dutch Flat are visiting Mrs. E. Eshbach. They will shortly open dressmaking parlors in Sonoma.

Mrs. M. Cockrell of Texas and Mrs. F. H. Larkin of San Francisco are visiting Mrs. T. Bates of this place.

Miss Ida B. Ewing and Miss M. McMahon, teachers in the Public School, will spend their vacation in Santa Rosa.

Chas. Crofoot of Glen Ellen was in town Tuesday. Charley is one of the live men of Glen Ellen, and don't you forget it.

Mr. and Mrs. J. B. Badger of Agua Caliente returned from San Francisco Monday, where Mr. Badger had been under the care of a physician for a short time. We are glad to state that he is improving.

Mrs. Tatterson of Philadelphia, accompanied by her daughter, is visiting her brothers, Messrs. Wm. McP. and Humphrey Hill of Glen Ellen. Mrs. Tatterson expresses herself as being delighted with the scenery and climate of Sonoma Valley.

Miss L. Frese, principal of the Sonoma Public School, left for her old home in the East last Wednesday morning. She has been contemplating leaving Sonoma for several months as her health had become somewhat impaired by a too close application to her school room duties.

J. H. Burnell of San Francisco was the guest of M. A. Flynn of the Sonoma House several days this week. The gentleman was much pleased with Sonoma, so much so that he has rented the Gillan residence on Second street East and with his family will occupy it for the Summer.

### Glen Ellen Gossip.

Nice weather and lots of transient travel.

Mr. Hasting and family will leave next week for Oregon.

The new saloon has been opened and is now in full blast.

The election of School Trustees will take place next Tuesday.

Mr. Chauvet has placed a new sign over his distillery. Mr. C. makes a fine article out of California brandy.

Give credit to whom credit is due, Mr. Editor. It was the Native Sons of this place that fixed the hall of Mr. Gibson.

The editor of the INDEX-TRIBUNE was in town last week in a hurry, as usual, fire in his eye and two books in his pocket—subscription and receipt.

The entertainment last Friday evening given by the children of the Glen Ellen school for the purpose of purchasing a bell for the new school house was a fine affair and financially a success. Some 75 persons were in attendance, and we were glad to see that so much interest was taken by all in the matter of education and schools.

OLD TIMER.

Glen Ellen, June 3, 1889.

F. J. Kerridge and G. P. Aston were elected School Trustees of the Los Guilicos district at the recent election.

The first ripe apples of the season were brought into town one day this week by S. H. Shaw, whose farm is located in the eastern outskirts of town.

A box of Ayer's Pills has saved many a fit of sickness. When a remedy does not happen to be within reach, people are liable to neglect slight ailments and, of course, if serious illness follows they have to suffer the consequences. "A stich in time saves nine."

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Peculiar

Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the curative value of the best known remedies of the vegetable kingdom. Hood's Sarsaparilla

Peculiar in its strength and economy, Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is more of Hood's Sarsaparilla sold in Lowell than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad no other preparation ever attained so rapidly nor held so steadfastly the confidence of all classes of people. Peculiar in the brain-work which it represents, Hood's Sarsaparilla combines all the knowledge which modern research and science has developed, with many years practical experience in preparing medicines. MAIN ST., PETALUMA.

A BIG STRIDE!

Up to last year we pursued the stereotyped plan in vogue everywhere of buying our furniture, etc., from the San Francisco jobbers. That entailed upon our customers the payment of what can only be brought from the east in full car-load lots to get the advantage of car-load rates, it is rather a large undertaking to attempt to import directly, but we decided to try it.

With many misgivings, in July of last year we sent our first car-load order to the Eastern manufacturers. The car was loaded at the door of the factory in Michigan and came straight through, arriving in August. The quality of the goods and their prices was as much a surprise to us as to our customers. We could sell them Eastern Hardwood Furniture at about the price they have been paying for cheap California Pine Furniture. It is needless to say that

Our Venture was a Success.

We continue to send in our orders, and shipments now reach us monthly and we are dealing in but little else. For these persons we are now selling

Furniture at Less than San Francisco Wholesale Prices,

And in proof of this statement we ask intending purchasers to come and see our goods, get our figures and before buying compare them with San Francisco prices, and then there can be no question.

We are selling Fine Antique Oak Bed-Room Sets of eight pieces for $35, that are quoted in San Francisco at $45.

Square Top Extension Tables in Hardwood for $16, that are sold in San Francisco for $22.

Body Brussels Carpet we quote you at prices you have heretofore paid for Tapestry.

Smyrna Rugs, Portiers and Window Shades are also among our Eastern importations, and we give the same advantage in those lines. In short we are now giving Sonoma county people the middlemen or jobbers profit on everything in our line.

☞ Come and get our prices and you can prove it in anyway you like before purchasing.

## TOLD OF THE MARINES,

### AN IMPORTANT THOUGH MUCH ABUSED FACTOR IN A NAVY.

**The Tars Prejudice Against the Navy's Policeman—The Admirals and Captains, However, Praise the Marines—Call to "General Quarters."**

There is, perhaps, no body of men in the service of the United States government who have come in for a greater share of contumely and received less praise for actual service rendered than have the marines of the United States navy. From time immemorial it has been Jack's saying in response to all doubtful stories, "Tell that to the marines," for the tars as a set are the most incredulous fellows, and the hearty contempt in which they hold the marines is sufficient to incite the firing of a volley of epithets at the latter on the slightest provocation

It is amusing, too, to see with what avidity the young apprentices seize hold of the prejudices of the able seamen, and a person only need go aboard one of the cruising training ships to hear the youngsters bawl out with all the zest of an old shell back, "Oh! you Hottentot marine!"

The duty of a marine aboard ship is essentially that of a policeman, and by reason of this very duty no fraternizing can be safely permitted between "the guard" and the men forward. As to the tar, any one acquainted with his devil-me-care spirit and wild, fun loving nature must know how he looks upon any one put over him as a check. The tar looks up to and respects his officers, for he fears them; but the marine he hates, for it is the marine who gets him in trouble. But if marines were not a feature of a man-of-war it is doubtful whether the discipline required of a crew of 500 men would be of that efficient nature now in force. Our navy is peculiarly distinctive in its method of mobilization when compared with similar institutions abroad. In the first place, our service offers better pay, better duty and greater emoluments than does any other service in the world.

All United States war vessels carry a marine guard, ranging in size, however, from a captain's command of fifty to sixty men on a flagship to a corporal's squad on a monitor. When a ship is about to go in commission her marine guard, which has been previously detailed, is marched aboard and stands in readiness to salute the ensign as it floats out from the peak. From this moment until the expiration of the three years' cruise the guard watches that "element forward" with a constancy that allows of no relaxation. When the three years' cruise is at an end, when the seamen who have been shipmates through every trial and hardship are about to march ashore and sever their associations, that stern and implacable marine guard may be seen in line on deck and under arms—the last to leave the vessel—and as the flag is hauled down they give the last salute to the colors they have defended.

SHOOTING FROM THE RIGGING.

The marines have warm admirers in those persons who are acquainted with their sterling worth and necessity. Says Admiral Wilkes: "The marines constitute the great—I had almost said the only—difference between a man-of-war and a privateer." "They are," adds another writer, "the bulwark between the cabin and the forecastle," while Rear Admiral Stewart remarked, "the support afforded by a steady column of bayonets has rendered mutinies scarce." The marine is peculiarly a soldier. He is dressed, equipped and handled as a soldier, and his whole life is the very opposite to that of a sailor.

In time of action aboard ship the marines are either stationed at one of the heavy pivot guns, or else disposed about decks and in the tops to act as sharpshooters. It was a marine who from the top of the Frenchman alongside the Victory at Trafalgar, shot down the brave Nelson as he stood on the deck of the latter ship. The guard messes, eats and sleeps in a body, always apart and distinct from the crew.

Let the reader imagine himself at midnight on the gun deck of a large vessel of war lying quietly at anchor. A dim light is burning forward, throwing a heavy glare among the crowded hammocks where 500 men are sleeping. Not a sound is to be heard save the steady tread of the marine sentry overhead, while the swish of the black water against the sides breaks the ominous silence. As the bell strikes "eight," the hour of midnight, a solitary figure in full uniform, with sword and pistols, steps noiselessly from the cabin door. He stops and listens for a moment, as the turning of some restless sleeper in his hammock attracts his attention. He is the commanding officer. Walking forward, he bends over the hammock of a drummer boy and whispers a word in his ear; the only reply is a bound to the deck, and the next instant the long roll is sounding through the ship.

As if by magic 500 men leap from their hammocks, hastily pass three lashings, and throwing them against the sides of the ship, rush half naked to the guns. In three minutes after the first sounding of that call to "general quarters," the guns are cast loose and the glare of the battle lanterns along the deck reveals the crouching forms of the tars as clustered about their pieces they wait the word to open fire. And again all is silent along that deck, the same as when a few minutes previous every man was wrapt in slumber. Not a word of warning had been given, and the sudden alarm aptly proved the excellence of the ship's discipline.—New York Times.

**Took Himself Away, Likely.**

There was a young photographer who lived—I use the term advisedly—at our boarding house, but he is not there now. One morning he helped himself to fish with the uncalled for remark, "Secure the shad roe ere the substance fade," and since then he has been missing. There is no clew to the mystery of his disappearance, but a hard, cold look has been the landlady's favorite wear ever since he went away.—Bob Burdette.

The Fine Carriage Horse
**COMBINATION**
Will make the Season of 1889 at the
UNION STABLES, Sonoma.
Season Closing July 1st.

**DESCRIPTION.**

Combination is a fine, large stallion 17¼ hands high, weighs 1500 pounds, five years old, a dark rich chestnut with small white star on forehead.

**Pedigree:**

COMBINATION was sired by Young George M. Patchen, by California Patchen, by Geo. M. Patchen Jr. His dam was from a thoroughbred mare called Copper Bottom, imported from Kentucky and sired by Signal of Marysville.

All wishing to raise horses for use and profit would do well to examine this horse. Fine carriage horses bring double the money that others do in any market and for farm work are unsurpassed.

**TERMS:**

TWENTY DOLLARS for the season. Insurance, THIRTY DOLLARS, payable when the mare is known to be in foal.

The best of care will be taken to guard against accidents and escapes, but no liability assumed.

**Reference:**

Harry Meeks of Haywards, has some very fine colts from this horse.

ILLUSTRATED.

HARPER'S BAZAR will continue to maintain its reputation as an unequalled family journal. Its art illustrations are of the highest order, its literature is of the choicest kind, and its Fashion and Household Departments of the most practical and economical character. Its pattern-sheet supplements and fashion plates alone will save its readers ten times the cost of subscription, and its articles on decorative art, social etiquette, house-keeping, cookery, etc., make it indispensible to every household. Its bright, short stories, and timely essays, are among the best published; and not a line is admitted to its columns that could offend the most fastidious taste. Among the attractions of the new volume will be serial stories by Mrs. Frances Hodgson Burnett, Mrs. Alexander, William Black and Thomas Hardy, and a series of papers on nursery management by Mrs. Christine Terhune Herrick.

HARPER'S PERIODICALS.
